

# > Sabine Tait

As a **front-end developer** from a healthcare background, I am all about the user experience: I create clean designs with accessible and readable code, and value inclusive and welcoming environments. You can find me following tennis and Toronto's sports teams, as well as brushing up on languages inside and outside of tech.

Toronto, ON | email: [sabine.tait@gmail.com](mailto:sabine.tait@gmail.com)

## Recent Experience

### Office Manager | First Care Centre

2015 - 2021

- Used refined communication and organization skills to manage 7 practitioners' schedules in order to maximize clinic hours and maintain a personable experience with patients
- Streamlined all patients' paper files to an updated digital web-based patient management system, and implemented electronic billing to over 85% Canadian insurance companies
- Updated social media pages and maintained accurate information on Google and OpenCare with office news, marketing material, and wellness tips to ensure community presence

### Bilingual Seasonal Receptionist | Unique Gas Products

2012 - 2015

- Handled all consumer and dealer products inquiries (English/French), resolved complaints, facilitated returns, and directed fulfillment issues to the appropriate company personnel
- Supported sales/marketing teams in the organization and distribution of bilingual POP marketing material to North American dealers to successfully launch 17 new products
- Key translator for technical support to facilitate communications with French speaking dealers and consumers
